Elsevier assumes no responsibility for any injury and/or damage to persons or property, as liability issues of product manufacturer, negligence or other reasons, or for any use or exploitation of methods, products, instructions or ideas contained in included material. Due to the rapid advancement in the field of medical science, it is strongly advisable that an independent verification of diagnoses and drug dosages is performed. Although every advertising material must comply with the ethical (medical) standards, its inclusion in this publication does not constitute a guarantee or endorsement of the quality or value of such product or of the claims made by its manufacturer.
